WHO WE ARE

GKK Interns is a structured, intensive internship program designed to transform aspiring developers into industry-ready professionals. We believe the best way to learn software development is to build real software -- not follow tutorials.

Each batch runs for one month, during which interns work in teams on production-grade projects under the guidance of experienced mentors. Our program covers the complete software development lifecycle: from planning and architecture to coding, testing, and deployment.

What Makes Us Different

P

Production Code, Not Toy Projects

Interns contribute to real codebases that serve actual users. No "calculator apps" or "to-do lists". Our projects include full-stack web apps, mobile apps, dashboards, and AI-powered tools.

M

Mentorship-Driven Learning

Every team is paired with a senior developer who conducts weekly code reviews, conducts 1-on-1 sessions, and ensures interns are learning industry best practices from Day 1.

S

Sprint-Based Workflow

We follow agile methodology with weekly sprints, daily standups, sprint reviews, and retrospectives. Interns learn how real engineering teams operate at startups and tech companies.

C

Career Outcomes That Matter

Top performers receive LinkedIn recommendations, referral letters, and direct introductions to hiring partners. Your GitHub profile becomes your best resume.

PROGRAM SPECIALIZATIONS

Choose your track based on your interests and career goals. Each specialization is designed to give you deep, practical expertise in the most in-demand areas of tech.

1

Full-Stack Web Development

Build complete web applications from frontend to backend. Master modern frameworks, database design, authentication systems, and cloud deployment pipelines. Ship features that real users interact with every day.

Tech: [React](#), [Node.js](#), [MongoDB](#), [Next.js](#), [Supabase](#)

2

Mobile App Development

Create cross-platform mobile applications that work beautifully on both iOS and Android. Learn mobile-specific architecture patterns, native APIs, and app store deployment.

Tech: [React Native](#), [Flutter](#), [Firebase](#), [Android](#), [iOS](#)

3

UI/UX Engineering

Design beautiful, accessible, and user-centric interfaces. Learn design systems, prototyping workflows, component architecture, and how to translate Figma designs into pixel-perfect code.

Tech: [Figma](#), [Tailwind CSS](#), [Design Systems](#), [Framer Motion](#)

4

Backend & API Development

Architect scalable APIs and microservices that handle thousands of requests. Deep dive into database optimization, caching strategies, authentication, and cloud infrastructure.

Tech: [GraphQL](#), [Docker](#), [AWS](#), [PostgreSQL](#), [Redis](#)

5

AI & Machine Learning

Integrate AI into real products that solve real problems. Build intelligent chatbots, recommendation engines, and automation tools using cutting-edge ML frameworks.

Tech: [Python](#), [TensorFlow](#), [OpenAI API](#), [LangChain](#)

HOW IT WORKS

Our structured 4-step process ensures every intern gets the support, direction, and real-world experience needed to accelerate their career.

Batch Start Policy: Every month, date 1 is designated as Batch Start Day.

1

APPLY

Submit Your Application

Visit gkkintern.in and complete the application form. Upload your resume/CV -- our AI-powered system (Cloudy) automatically extracts your details. Choose your preferred interview slot. Applications are reviewed on a rolling basis.

Duration: 7-14 days | Format: Online application

2

INTERVIEW

Show Us Your Potential

Selected applicants are invited for a brief interview (15-20 min). We evaluate your passion for coding, problem-solving mindset, and willingness to learn. No algorithms tests -- we care about your enthusiasm and growth potential, not just your current skill level.

Duration: 15-20 min | Format: Video call

3

JOIN

Start Building on Day 1

Approved candidates receive their onboarding pack: tools setup guide, team assignment, project brief, and access to the intern dashboard and mobile app. You hit the ground running from Day 1 with a real project and a real team.

Duration: 1 day | Format: Virtual kickoff

4

SHIP

Demo Day & Certification

After 4 weeks of sprinting, every team presents their completed project at Demo Day. Top performers earn certificates of excellence, LinkedIn recommendations, and referral letters. All graduates join the GKK Alumni Network for ongoing opportunities.

Duration: 1 month total | Format: Agile sprints

WHAT INTERNS RECEIVE

Real Project Experience

Work on production software used by real people. Build features that ship to thousands of users.

Professional Certificate

Receive a verified internship completion certificate recognized by industry partners.

Partner Company Referrals

Outstanding interns get direct referrals to our hiring partners for full-time roles and advanced internships.

Portfolio-Ready Projects

Walk away with a deployed, production-quality project on your GitHub. The strongest asset for job interviews.

Expert Code Reviews

Senior developers review your code weekly. Learn clean architecture, best practices, and efficient coding patterns.

LinkedIn Recommendation

Top performers get personalized LinkedIn recommendations from program leads and mentors.

Alumni Network Access

Join a growing community of developers. Access hackathons, job boards, and networking events.

Recorded Sessions Library

Access recorded mentorship sessions, workshops, and project reviews through the intern dashboard.

Our Technology Ecosystem

Interns work with the same tools and technologies used by leading tech companies:

Category	Technologies
Frontend	React, Next.js, Tailwind CSS, Framer Motion, TypeScript
Backend	Node.js, Supabase, PostgreSQL, GraphQL, REST APIs
Mobile	React Native, Flutter, Firebase, Dart
DevOps	Git/GitHub, Netlify, Docker, CI/CD, Vercel
AI/ML	Python, TensorFlow, OpenAI API, LangChain, Gemini
Design	Figma, Adobe XD, Design Systems, Prototyping

PROGRAM INVESTMENT

We believe world-class tech education should be accessible to everyone. Our program fee is designed to be affordable while ensuring commitment and quality.

Rs. 499

One-Time Payment + Platform Fee

(A small Razorpay processing fee may apply at checkout)

EVERYTHING INCLUDED

- + Full 1-month internship program
- + Weekly mentor code reviews
- + Community chat access
- + Internship completion certificate
- + Partner company referrals
- + Team project assignment
- + Intern dashboard + mobile app access
- + Recorded sessions library
- + LinkedIn recommendation (top performers)
- + Alumni network lifetime access

TRUST & COMPLIANCE

Your data, payments, and personal information are protected by industry-standard security measures and trusted payment partners.
